## Freedom of Information Disclosure Log

The disclosure log provides details of previous FOI requests which may have a wider public interest. ESO updates this log regularly.

Please note that the disclosure log will not list every document or information released under FOI. Some responses may consist of large numbers of documents that are not held in electronic format. Where practical, the documents concerned have been scanned and made available online.

Where the actual reply has been reproduced, we have deleted the applicant's name and other personal details.

In addition to a summary of the original request, the disclosure log indicates whether or not the information was released and which exemptions or exclusions, if any, were applied.

Request number	Request details	Outcome
21015	The new CPI basket for collecting prices for the CPI at a certain outlet.	Request deferred as the new basket is not yet decided at the most detailed (7-digit) level. The new basket up to the product (5-digit) level is posted on the ESO website.
22181	Inflation and some economic indicators for the fourth quarter 2008.	Request deferred as the requested data have not been submitted to and noted by the Cabinet <sup>1</sup>
